

Rules for the use of premises on Campus Medicinareberget

These rules apply in all premises on Campus Medicinareberget, both those shared by the faculties and those that are managed by, for example, the Institutes. Premises rented by the respective faculties (Sahlgrenska Academy and the Faculty of Sciences) may be used for the faculties' main activities in accordance with the mission (teaching, research, collaboration, administration), for the activities of student unions & student union associations (according to the Higher Education Ordinance ch. 1 § 13), the University of Gothenburg's Policy on the use of premises for opinion-forming activities (Dnr GU 2022/2226) and Rules regarding the use of the University of Gothenburg's premises for parties and events (Dnr V 2011/482), as well as for the activities of the employees' staff organisations.

If there are un-booked premises after the said needs are filled, premises can be rented/lent. Leasing/lending is only for parties/businesses with a clear connection to university activities. External parties that get access to our premises must have a direct connection to the core mission mentioned above. Student associations that are not part of a student union (SAKS or Naturvetarsektionen, Göta Studentkår) must have a written agreement with one of the student unions to get permission to book/rent/borrow premises.

The parties/activities granted access must not damage the faculty's or university's reputation or otherwise be incompatible with the faculty's or university's rules, policies, values or otherwise interfere with other activities.

Information dissemination

External parties, for example companies or non-affiliated student associations, that want to engage in the distribution of free newspapers, brochures or similar information dissemination in the faculties' premises must get the activity approved in advance by the university/faculty or a student union. The activity must have a direct connection to university activities and must be assigned to a location that is suitable regarding safety and crowding.

Rules for posting on notice boards

In addition to what appears above in these rules and in Gothenburg University's Policy for the use of premises for opinion-forming activities (Dnr GU 2022/2226), the following rules apply to posting on notice boards in all the faculties' premises:

- There is a general ban on posting in the premises, which means that posting may only take place on notice boards set up for the purpose.
- Posters may be put up by parties within the University of Gothenburg, the student unions and external parties where events have a direct connection to the university's activities and are organized in collaboration. All postings must include details of the organiser.
- Posters that contravene these rules will be denied/taken down.
- The following also applies to the faculties notice boards:
 - A poster or notice may be posted up to three weeks. The person who put up the poster is requested to make sure it is taken down. Posters and notices must be provided with a date stamp.
 - Sahlgrenska Academy's faculty office prints posters for SAKS. In return, if necessary, the student union puts up posters for the faculty and ensures that the faculty's notice boards are kept in order and ensures that the rules are followed. However, the ultimate responsibility for what is posted on the noticeboards remains with the dean.
